A STATE OF THE PARTY OF THE PAR

should be address

THEODAY, MARHARY 25, 1880.

Only One Question Before the

People. cornered in an irreduced the manufity hegin to not opticises in order to gain the This dedge adopted by the rem organ is a pid as the bills. We have convinced it of refered 16 of e in this community as th chiespine of lawlescotes and dis-There is not the shadow of an exbase for its position. It can not be justihed by any possible argument, hence more is attempted. It is repudiated by the press of the State and is smalle to respond o our challeune and present a single paraster in indorsement of its course. This is rendered all the more algument from the fact that there are thly conducted papers in the State that do not indorse probabilies, but which think too highly of their reputation to advocate upon lawless the sole scenpuncy of the sum organ of this, sity. Manufally enough it finds it impossible to sustain itself on any mbecantial grounds, therefore it such to distrect public attacking from its litible condition by proposaling a test of contions in the bape of sick-trailing, the sail possible.

a of the people of Beager in the co-THE WEST believes in law and order. It The Wind believe in law and order. It explains that the people made this law and the law they have the right to demand he information. The opponents of the law have the privilege of taking the question of its repeal in the people, and we are ready for that they, but the run organ carefully retrains from anguing that phase of the question. The readen is not difficult to discover. It is walking to sea the result of the captack new their made to according weeker it will be care by submit a tain whether it will be take be submit a license plank, to the people. Its party did not days to declare itself in 1888, only

did not dare to declare seed in 1985, only two years ago, and the ram organ is straid that the party may not have the courage, of its convictions this year, consequently is to fighting say of that head.

It has declared that the sentiment of Bangor was against the law, but we showed that the majority is this city. For the Constitutional Amadement was \$72 in 1884 when the operation was senarally before the Constitutional Amandment was 572 in 1806 when the question was squarely before the people. The run organ deliges them figures and is as dumb; as as 'cyrles,' when contracted with the proof, that fits justication is a lie. It has declared that the law has so recreasive the, run gillers because it was no good, but a few days after the effects began its enforcement we although ficers began 'Na enforcement we showed from its own common that leatened of free ram ithe busicies was being conducted in a "mysterious manus?" and enly shows who "mysterious manust" and only those who were "lottleted" could get a drink. These bas it tained and doubled on itself in pa-seming the championship of an outlawed traffic so diagerous to the welfare of the consumity that even its depreved adve-

cate can patter no word to its opedit.

Fightic semidiment does squarin the law, became the people have so declared by their votes. The law can re-strict the traffic at the been demon-atrated by its enforcement and admitted by the rum organ beelf. The mus-estions are afraid of the law as they rerest behind closed doors when is is known that the officers are entereing it. Three United States literates, have already been surrendered and their haddens, have given up the business rather than fane the Court. One of the fitty or more run shilter against whom the articles has been speradowned was reconstituted to the Polite Francis restorates. ark vestoracy processived in the Police Dourt yesterday for a single sale. He was promptly sentenced to a fige of 850 and shirty days in jail. An oppeal was entered but the Grand Mithout deals be indicted by the Grand Mithout deals be indicted by the Grand Mithout deals be indicted by the Grand Mithout deals in crime and the evidence consumerable. Another sale was caught a second fide by the she of liquer last plate and the penalty for the disease in a fee of 800 and six months in jail, a vigorous sixplication of the law will mean prosecuted in the Police Do rigorous sipplication of the law will man teach the ram sellers that is is not only a minyable cooppelies has a second or the law.

There should be no let up in the market agricult the solvene, and the law slitting oilings about declars, the metives in farthe of a right anforcement of the law for the suppristion of this prairie.

The Val and Means Committee. Thus simply shows how firely the Democrate are weeded to their idels. The New York Mereld in a free trade organ, but it his reputated the Mile bill as a 'turuddle" and said as the opening of the present senten of Congress, "It would be a binder of the first magnitude to the Democrate perty to the last to such a measure." Yet is appears that the Democrate are going to opening less that blunder. Mr. McKitaty hopes to have his bill before the Motion in shock few weight. The dustages all minimarative the committee: The dustral alluminative bill pasted the House just as repended from the committee:

The Samoan Treaty.

[See Tert Tritone.]
Democratic journale like the Provident, the open acceptant, the Sun also, are no-Congring to believe the actionment of Bellevicher the arrayoutive rights of the United Retail, Germany and England in the Santon Librarie. They write as if it were desirable to desirable to desirable to desirable. the flanton filands. They write as if it were desirable to destroy a meaty simply because it were negotiated under a Reynolism. Administration. They show no purpose to examine the facil, but rather purpose to examine use asors, but ranner to concert the truck their public. We shall endeavoy to collecte them as to the true clusters in which President Clere-langle administration had lett us as to our rights it fames, and at the same time to show the substantial and valuable gain that her been made under President Har-
